APIs

[29/02/2016 – Current]

Drupal Backend Expert

Seahub

Address: The Junction, Australia

City: Sydney

Country: Australia

I am the solo drupal backend developer for www.seahub.com.au, I developed over half dozen drupal 8 modules to address the following features

- Date Repeat, propagate events throughout next X years for ships maintenance

- Bulk Edit that allow changes on several content types thru Views tables with AJAX
- Maintenance Task content type features
- Private Terms, a way for the user to create Terms that are assigned to him and not visible to all other users
- and more

I'm currently working on offline features for seahub, with SQLite, PhoneGap and html5 offline cache .

Tech Stack

Drupal 8
 PHP 7.2+
 MySQL 5
 HTML 5
 CSS 3
 jQuery
 Git
 Photoshop

Drupal 8 **Backend Specialist**

Those certifications grant me the title of Drupal Grand Master for both 7 and 8 versions.

DIGITAL SKILLS

SysOps

Linux | Jenkins | apache | Docker | AWS | Azure

Web Dev

php 7 | javascript | css 3 | gulp | jQuery | Laravel | Git | Jira | SQL | sass

PUBLICATIONS

Publications

I helped or help a few drupal contrib modules, and drupal core it self for versions 7 and 8

Some of the modules I participated: birthday, nodejs, calendar, timezone, og custom fields

PROJECTS

Projects

Plugger project

That project was done in Drupal 7, with a lot of custom coding to deliver all the needed features, such as Dynamic highly configurable Data Import and Export

Multi-database implementation; 1 DB per account, giving more flexibility for each client, and access control

Projects

Fireman

A complex Help Desk solution with wide features for all needs, developed from early '98, with Delphi 6 and 7, it is a Client-Server solution using MSSQL that many Brazil companies used and still use

Among the modules that was offered for the clients, they covered local app (for windows), a web solution that works with IIS 7 (windows server) delivering HTML pages for any intranet/extranet user, automated email system, and automated inventory solution

I built all modules where some features I did alone and others with the help of a small team of 2 to 4 members.

Projects

Cryptocoins

I've been working for 1 year now with crypto projects, helping local biz to buy and sell bitcoins and other crypto coins, coins rates, generating wallet addresses out of an XPUB, artificial intelligence bots for trading, and more.

Projects

Fabricio Giannone

This ecommerce site www.fabriziogiannone.com is from 2013 and I did both frontend and backend. With 3 languages, post office integration, payment gateways, and some custom modules for special tweaks.

It took 3 months and the designer sent me the PSD files and I turned it into a Drupal 7 theme on top of Zen theme.

Projects

The modules or themes that I used, extended or enjoy most, are:

- Views
- Feeds
- Context
- Features
- Migrate
- Webform
- Bootstrap

and I have extensive experience with the Form API and Drupal Hooks, since Drupal version 5.

LANGUAGE SKILLS

Mother tongue(s): Portuguese

Other language(s):

English

LISTENING C2 READING C2 WRITING C2

SPOKEN PRODUCTION C1 SPOKEN INTERACTION C1

ORGANISATIONAL SKILLS

Organisational skills

Good team organization, I managed several teams for different types of projects, using many technologies that integrate to deliver the client needs

I can lead and teach all developers pointing them the right direction, so the team can complete all tasks within the specified timeframe

JOB-RELATED SKILLS

Job-related skills

I am a fast learner, self taught, I can figure out any language or feature, to better apply to what the project need.

I have a great memory and very high creativity. Give me one problem or need, and I will quit fast suggest one or more possible solutions and how to achieve it.

PRESENTATIONS

Presentations

I attended to DrupalCamp SP in 2013 and I presented about gaming development with Drupal, about my D6 web based rpg space game www.outer-core.com

Presentations

I attended to FISL 14 in 2013 and I co-presented about Quaizer, a Drupal help desk solution
